Manufactured catheter stabilization devices are now listed as “preferred” in the new Infusion Nursing Standards of Practice. Grip-Lok® is a stabilization and securement device strong enough to lock catheters, tubes and lines securely in place, yet versatile enough for almost any securement situation.

**Safe**
Grip-Lok® is latex free and packaged sterile, allowing you to use Grip-Lok® close to the insertion site or right in the sterile field.

**Simple**
Grip-Lok® is applied in the same simple manner as a bandage and can be easily placed and adjusted by gloved hands.

**Secure**
Durably engineered, Grip-Lok® holds better than tape and helps prevent dislodgment and migration, resulting in reduced risk of lost lines and patient discomfort. Using Grip-Lok® for catheter stabilization conforms to the new Infusion Nursing Standards of Practice and can eliminate the need for sutures and unscheduled catheter restarts, thus directly reducing needlestick injuries.

**Versatile**
Grip-Lok® can be universally used among a wide range of lines and tubes along with virtually all catheter brands and types.

---

**The Grip-Lok® Advantage**
- Easy to use and apply - even with gloved hands
- Strong grip holds important lines in place, saving time, money and patient comfort
- Conforms to the new Infusion Nursing Standards of Practice and can eliminate the need for sutures and unscheduled catheter restarts, thus directly reducing needlestick injuries
- Hypoallergenic and Latex Free to reduce the risk of allergic reactions
- Sterility allows use close to the insertion site
- Hydrocolloid version designed to be gentle on fragile skin, especially in neonatal patients

---

**Common Applications**
Grip-Lok® can be secured anywhere on the body and can be used universally with lines, tubes and catheters of varying sizes.

- **Chest Tubes**
- **Feeding Tubes**
- **Intravenous Lines**
- **Central Venous Catheter**
- **Peripherally Inserted Central Catheter (PICC)**
- **Surgical Drains**

Any place a catheter, tube or line needs to be secured!
